

OGP Group is committed to:

- Maintaining our Environmental Management System to AS/NZ ISO 14001;
- Objectives and targets that define the reduction of impacts on the environment through conducting risk assessments and hazard analyses;
- Managing our operations in compliance with applicable laws, legislation, regulations, standards and codes of practice that minimise any adverse impact on the environment;
- Conserving our resources, minimising waste and seeking continual improvement of processes to protect the environment;
- Communicating with our employees, customers, suppliers, contractors and the community on environmental issues;
- Providing appropriate training for awareness and education for our people on environmental issues and specifically to individuals with environmental responsibilities.

OGP Group recognises that environmental conservation is one of the important issues of our community. We recognise the importance of maintaining a high standard of environmental care in conducting our activities such as design and supply, manufacturing, installation, construction, commissioning and maintenance.

Our management commits to minimising pollution and contributing towards a sustainable future by operating our facilities in a manner that reaches a balance between environmental, technical, economic and social objectives.

OGP Group seeks the combined efforts of all employees and our subcontractors to ensure the effectiveness and success of our approach to environmental sustainability.

For our business and project site activities, our management will also:

- Establish Environmental Management Plans, in liaison with our Customers (and subcontractors as applicable) setting out the responsibilities and processes to minimise impact;
- Ensure all work practices comply with our environmental management system and legislative obligations;
- Conduct monitoring and evaluation, to ensure the

environmental compliance and obligations are achieved;

- Require subcontractors to operate in an environmentally responsible manner and adhere to relevant environmental requirements;
- Regularly review performance, identify and implement corrective and preventative actions that contribute to continually improving the environmental performance of our operations.

We recognise that all employees have a major role to play in protecting the quality of our environment. As such, to achieve our environmental policy commitments, the company will actively provide for, encourage, and support training in environmental issues and sustainability.
